SEPA Environmental Event Report

Action 27/06/19AA - Upon receiving the complaint via SCC, telephoned and emailed the 2 sisters factory regarding a
Description complaint asking them to investigate. attended the area to carry out a FIDOL odour assessment in response
to the complaint. No offensive odours were substantiated in the duration of the assessment. There were brief chicken
factory odours at some points but faint and transient.
Noted around 11:05 seagulls previously sitting on roof of factory became active and flew circling above the factory for
several minutes then settled again, this coincided with a brief odour from the factory. Did not detect any diesel/fuel
odours. Did not go on site as offensive odours not substantiated. Site odour assessment spreadsheet updated.
